

How to make your iOS device more accessible

Settings → General → Accessibility

Siri

- ⇒ Ask Siri to do everyday tasks such as send messages, set reminders or get directions in maps

Display Accommodations

- ⇒ Invert colours
- ⇒ Choose from a range of colour filters

Safari Reader

- ⇒ Reduces visual clutter on webpages such as ads, buttons and navigation bars

Abc

Font Adjustments

- ⇒ Convert to a larger, easier-to-read size

Dictation

- ⇒ Say what you want to write and convert it into text

VoiceOver and Text Input

- ⇒ Each character on the keyboard is read aloud as you touch it
- ⇒ Corrects misspelt words

Speak Screen

- ⇒ Have all the content on the page read back to you
- ⇒ Adjust the voice's dialect and speaking rate
- ⇒ Have words and sentences highlighted as they're being read.
