

‘Epigenetics & Evolution’.

Institute for Life Sciences Conference

The aim of this conference is to showcase interdisciplinary research in the field of epigenetics and evolution with a programme that focuses on four broad areas:

- Evolutionary impacts
- Mechanistic epigenetics
- Health consequences
- Relevance to policy

Keynote speakers:

Dr Jordana Bell, King’s College London
Dr Tobias Uller, University of Oxford

Internal speakers include:

Professor Cyrus Cooper, Dr Thomas Ezard,
Professor Mark Hanson, Professor Rebecca Hoyle,
Professor Karen Lillycrop, Dr Ben MacArthur,
Dr Deborah Mackay, Professor Peter JS Smith,
Dr Richard Watson

Friday 5 June 2015 | 9.30am–6pm

Lecture Theatre 1, South Academic Block,
Southampton General Hospital,
University of Southampton
