

Primary school children becoming researchers!

Thursday 8th November 2018, 4:00 – 5:30 p.m.

Wordsworth Primary School, Victor Street, SO15 5LH, Southampton

Join us in this free event to:

- Find out how primary children can become researchers and have dialogues with their teachers to develop more inclusive practices.
- Hear first hand experiences from children at Wordsworth primary school about their experiences of becoming researchers.
- Listen to teachers and researchers from the University of Southampton who are involved in this process.
- Find out how you can be involved!
- For more information: <https://reachingthehardtoreach.eu/>

During this event you will have the opportunity to:

Be informed of the initial findings of the first phase of a three-year European Union funded project (2017-2020), which has as its central purpose the development of effective strategies for including all children in lessons, particularly those who might be seen as 'hard to reach'. The project involves five countries (Austria, Denmark, England, Spain, Portugal).

Who is this event for?

- primary school teachers
- secondary school teachers
- researchers
- policy makers
- practitioners
- families

Tea/coffee and cakes will be served at the start of the event.

This a free event! Places are limited.

Please, register by 31st October by sending an email to Lien Bui :
lthb1e13@soton.ac.uk
