

*Stephen Phillips BSc, CEng, FRINA
Managing Director, Seaspeed Marine Consulting Ltd*

Graduated in 1979 and, after working in shipyards in the U.K., joined International Catamarans in Sydney, designing fast ferries - and running sea trials on the Barrier Reef! Started Seaspeed in 1990, specialising in high speed craft technology - and employing Ship Scientists. As a spin-off started Autonomous Surface Vehicles (ASV) in 1998 and sold it in 2010 after winning multiple contracts with the MOD. Seaspeed continues to be a leading marine consultancy specialising in hydrodynamics.
