

## **New Multiple Sclerosis study in Hampshire recruiting now**

Researchers at the University of Southampton are looking for people with a diagnosis of Progressive Multiple Sclerosis able to travel to the Wessex Neurological Centre at Southampton General Hospital. A study is exploring the effects of infections on progression of multiple sclerosis over a two and a half year period. It is funded by the Multiple Sclerosis Society. For more information, or if you would like to participate, please contact the study on [\*\*SIMS@soton.ac.uk\*\*](mailto:SIMS@soton.ac.uk) or **07867142277**.
