

How to make your Android device more accessible

Find out what's hiding
in your Android device
and how it can help
to enhance your
everyday learning!

Settings → Advanced settings → Accessibility

Voice Access

- ⇒ Control your device with spoken commands
- ⇒ Use your voice to open apps, navigate and edit text, hands free

Display Accommodations

- ⇒ Invert colours
- ⇒ Choose from a range of colour filters

Abc

Font Adjustments

- ⇒ Convert to a larger, easier-to-read size

Screen Reader

- ⇒ **TalkBack**: describes your actions and tells you about alerts and notifications.
- ⇒ **Select to Speak**: select items on your screen to hear them read or described aloud

Sound Amplifier

- ⇒ Filter and amplify the sounds in your environment

Live Transcribe

- ⇒ Capture speech and view it as text
