

## Southampton Symposium on Supports, Surfaces and Heterogeneous Catalysis

**Date:** 15 June 2012      **Time:** 10:30–17:00      **Venue:** University of Southampton

Time	Speaker	Title
10:30	Prof. Phil Nelson (Pro Vice-Chancellor, UoS)	Welcome and Opening Remarks
10:45–11:30	Prof. Richard Catlow (University College, London)	Modelling of Microporous and Oxide Catalysts
11:30–12:00	Prof. Andrea Russell (University of Southampton)	In-situ Structural Characterisation of Core-Shell Electrocatalysts
12:00–13:30	Lunch	
13:45–14:30	Prof. Graham Hutchings (University of Cardiff)	Catalysis using Gold and Gold-Palladium Nanoparticles
14:30–15:00	Dr. Dave Thompsett (Johnson Matthey)	Functional Materials for Advanced Emission Control Catalysts
15:00–15:30	Refreshments/Posters	
15:30–16:15	Prof. Antony Cheetham (University of Cambridge)	Recent Developments in Inorganic-Organic Framework Materials
16:15–16:45	Dr. Robert Raja (University of Southampton)	Engineering Active Sites for Sustainable Catalysis
16:45	Prof. Gill Reid (University of Southampton)	Closing Remarks
