

On the day of your CLINIC VISIT:

Collect the first urine of that day, to bring with you to clinic. DO NOT FREEZE

- Use white collection tube in a single bag containing “CLINIC VISIT URINE” label
- Do not transfer to urine syringe and do not freeze
- Tighten cap well on white collection tube
- Attach the label and note down Date and Time.
- Return to its bag to bring with you to clinic.

Ensure that your SIMS study box has the following:

- Above sample, wrapped in plastic bag
- Freezer box, wrapped in white plastic bag
- Unused urine collection equipment bags
- Unused wipes
- Infection diary
- Instructions
