

The Really Practical Primary Science Conference

University of Brighton, Falmer Campus, Monday 26th June 2017 08:45 - 16:00

- Keynote speech ‘Small changes, big impact (mastering the primary science curriculum)’, by Debbie Eccles from Primarily Science.
- A choice of 4 workshops from a selection of 8 including: pencil free assessment, science on a shoestring, a solution to evolution.
- Opportunity to network with other local Primary teachers interested in raising the profile of Science.
- Fee £130 includes all resources, lunch and refreshments. You will receive a free disc containing all session materials.
- Find out the latest developments including curriculum, assessment and Ofsted.
- Suitable for Science Subject Leaders, Senior Managers in charge of curriculum overview, Class Teachers and Higher Level Teaching Assistants.

“Our partnership is unique in that we have all been experienced primary science teachers and we know, all too well, the pressures of everyday teaching. That is why we aim to provide support that is effective and easily implemented within a range of primary settings.”
