Avenue Campus

Our humanities campus houses a state-of-the-art purpose-built archaeology building and is located on the edge of Southampton Common, a short walk from Highfield.

How to get there:

To walk from Highfield Campus to Avenue Campus, head towards Building 46. Follow the stairs and turn left to follow the path down Lovers Walk. After using the pedestrian crossing on Highfield Lane, continue along Highfield Road until you find Avenue Campus on your left. A number of signposts will be in position to help you on your journey.

For step-free access, upon passing Building 46, turn left onto Chamberlain Road and follow the signposts to Avenue Campus.

Our student ambassadors will also be available to guide you.

If you are arriving at Avenue Campus by bus, you will be dropped off and picked up on The Avenue (A33). Look out for student ambassadors who will direct you between the bus stop and the Campus.

Boldrewood Innovation Campus

A short walk from Highfield Campus, our Boldrewood Innovation Campus is home to Southampton Business School (SBS) and engineering.

How to get there:

Walk towards Building 60 down University Road. Turn left and follow Burgess Road (A35). Use the pedestrian crossing at the junction with Glen Eyre Road and the garage to cross the other side of the road, and then continue eastbound along Burgess Road. The entrance to Boldrewood Innovation Campus will be on your right. A number of signposts will be in position to help you on your journey.

National Oceanography Centre Southampton

Waterfront Campus at the National Oceanography Centre Southampton (NOCS)

Our Waterfront Campus at NOCS is located within Southampton's docks, to the south of the city. It's home to the ocean and Earth sciences and houses an aquarium, laboratories, a library and more.

How to get there:

Pre-booked parking is available at NOCS for those interested in subjects based at the Waterfront Campus.

Our Waterfront Campus can also be accessed via our shuttle bus service from Highfield Campus, and via the U1C Unilink service. Student ambassadors will be available to direct you to the correct bus.
